

TNO ITSEF BV is your globally recognized partner in security approval of IT products, and smart card technology in particular. Our primary objective is to evaluate the security level of IT-products and systems by using a number of internationally recognized yardsticks, such as

- Common Criteria (ISO 15408);
- MasterCard (CAST, PTS);
- VISA requirements (VHAR, VRIR) ;
- PCI requirements (PED, EPP, UPT) ;

Currently TNO ITSEF BV is involved in two Common Criteria evaluations of ePassport products.

Furthermore our services include developer support, tools and training. TNO ITSEF BV is accredited by MasterCard, VISA, PCI, ZKA, Interpay, APACS, APCA and is licensed under both the Dutch and German Common Criteria Schemes. This means that CC certificates, which are issued upon a successful evaluation at TNO ITSEF BV, are recognized worldwide.

Our customers range from international financial organisations to telecom operators, IT product manufacturers and governments. We offer them a completely independent expert view tailored to their specific needs.
